DETAILED ACTION

1. Claims 1-34 have been examined.

Claim Rejections - 35 USC § 103

2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

3. Claims 1-34 are rejected under 35 USC 103(a) as unpatentable over Boe(US Pat. No: 6,236,975) in view of Ho(US Pat. No:6,480,690).
4. As per claims 1-34 Boe teaches a method of providing a user a plurality of answer-options to an issue question(Abstract)(Fig 2)(Fig 3)(Fig 4a) and providing a computer output(Fig 4b) related to financial planning(Fig 4c) derived from sources including survey data(col 2 lines 13-17). Ho discloses a system to teach a user based on his questions(Abstract)(col 2 lines 20-36) with a rule-based methodology(Fig 2/64) and an expert system database(Fig 5)(Fig 6)(Fig 12)(Fig 13).It would have been obvious to one skilled in the art at the time of the invention to combine Boe in view of Ho to teach the above. The motivation to combine is to disclose a system that can (answer) a user based on his questions as enunciated by Ho(col 2 lines 14-25) and which can be applied to financial planning.

Claim Rejections - 35 USC § 112

5. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

6. Claims 1-34 are further rejected under 35 USC 112(2nd) for failing to point out and distinctly claim what applicant regards is the invention. The claims are too broad and must be narrowed to portray the distinctive characteristics of the invention.

Conclusion

7. **THIS ACTION IS MADE NON-FINAL.**

8.
